Potential Victims & Vulnerable Communities

HUB MODEL

Directed Training and Community Engagement Raises awareness not only to empower society and other key stakeholders to identify victims of slavery and aid in subsequent rescue but to educate and inform potential victims and vulnerable communities of their legal rights, so that they are galvanized and are less likely to be targeted by exploiters and traffickers.

Those Already Trapped In Slavery

HUB MODEL

Targeted outreach and victim identification shines a light on those already trapped in slavery or left destitute and aids both direct and assisted rescue in collaboration with statutory and non statutory agencies. Initial assessment and support builds knowledge of the NRM and other pathways to remediation, builds survivor resilience and assists first responders in affecting meaningful intervention.

Survivors

IMSA TEAM

Independent advocacy provides Socio-legal support, tailored to the individual needs of the survivor, and a single and consistent point of trust, ensuring survivors can access rights and overcome barriers; building sustainable independence and mitigating the risk of re-trafficking. As well as ensuring survivor's voices are heard and empower engagement with criminal and civil justice processes.
