

DERBYSHIRE DOMESTIC ABUSE SERVICE DIRECTORY

TRAINING AND DEVELOPMENT

This is a directory which outlines the domestic abuse services that are available in certain areas throughout Derbyshire. For ease of access, the DA Service Directory has been split into sections which show the type of domestic abuse support available in Derbyshire, as follows:

- Accommodation / Accommodation-based Support
- Community Outreach Support - Adults
- Children and Young People's Support
- High Risk Independent Domestic Abuse Advisor Services
- Perpetrator Interventions
- Target Hardening
- Training and Development (this document)

The Derbyshire DA Service Directory will be regularly updated to ensure that it remains current, with additional services added as required. Therefore, it is recommended that the DA Service Directory is not saved on file but, instead, accessed via the link on the Safer Derbyshire website each time.

Should it be apparent that the Derbyshire DA Service Directory requires further additions or amendments, please email community.safety@derbyshire.gov.uk so that the directory can be updated as quickly as possible. Please note, some service descriptions may appear more than once due to being repeated under different sections of the directory.

Organisation Name	The Elm Foundation									
Name of Service / Project	Training Officer									
Description	Extensive training options to professionals and the wider public. Initially face to face, now virtual delivery. The post has worked closely with health care professionals, A&E staff, midwives, health visitors and the wider healthcare community. Training for DA champions in the community, sessions on DA awareness raising, hidden victims & cyber issues with DA. There is a significant gap / lack of referrals from health. As a consortium we are looking at the IRIS project as a means of trying to improve this and lessen the gap. Overall, in 20/21 Primary and Secondary health services accounted for 2.6% of referrals to community services and 3% of referrals to accommodation services. Adult social care is also worth a mention at 1% of referrals to community services and 0.4% of referrals to accommodation services. Increased awareness to professionals and therefore better practice is of the essence to better support for clients & better outcomes and life chances for the children.
